SENIOR DATA ANALYST | BUSINESS INTELLIGENCE & DATA AUTOMATION

Senior Data Analyst with 10+ years of experience designing data-driven solutions that improve business processes, automate reporting, and support executive decision-making. Expert in Microsoft Power Platform (Power BI, Power Apps, Power Automate, SharePoint), SQL, and Python, with a proven track record delivering enterprise dashboards, workflow automation, and data quality solutions across U.S. federal programs.

PROFESSIONAL EXPERIENCE

Senior Data Analyst – Team Lead

Federal Housing Finance Agency (FHFA) (*Contractor through RER Solutions*)

Washington DC | 09/2020 – 06/2026 | 40 hours/week

- **Led digital transformation initiatives** that modernized data collection, reporting, and business processes for FHFA's oversight of Fannie Mae, Freddie Mac, and the Federal Home Loan Banks by partnering with business stakeholders and IT teams to design enterprise analytics solutions in **SQL Server**, Tableau, and **PowerBI**.
- **Designed FHFA's first automated data validation framework** using **SQL Server**, **Python**, and **statistical methods**, translating business requirements into automated validation rules that reduced reporting discrepancies by **80%**, improved data quality, and accelerated regulatory reporting across 15 regulated financial institutions.
- **Developed a Personnel Security application** using **Power Apps**, **Power Automate**, **SharePoint Lists**, **Power BI**, and **SQL**, replacing manual workflows with automated approvals, notifications, dashboards, and reporting that strengthened compliance monitoring and helped resolve an Office of Inspector General audit finding.
- **Modernized enterprise reporting** by replacing spreadsheet- and VBA-based processes with automated **Power BI** dashboards using **Power Query**, **DAX**, **Power Automate**, **SQL**, and **SharePoint**, reducing reporting cycles from weeks to near real time while improving reporting accuracy.
- **Developed executive dashboards and KPI reporting** integrating workforce, procurement, financial, and operational data from multiple sources, enabling leadership to monitor performance, identify trends, support strategic initiatives, and make data-driven decisions.
- **Performed advanced data analysis** using **SQL**, **Python**, and **R** to validate large datasets, identify trends and anomalies, conduct ad hoc analyses, and communicate findings through executive briefings, Congressional reports, dashboards, and presentations for technical and non-technical audiences.
- **Led User Acceptance Testing (UAT)**, **developed technical documentation**, and **trained approximately 80 internal and external users** on enterprise reporting systems and Power Platform applications, improving user adoption, data governance, and long-term sustainability.

Senior Data Analyst – Labor Market & Official Statistics

National Statistics Office of Ecuador (INEC) - Ecuador's Official Statistical Agency

Quito, Ecuador | 12/2015 – 10/2019 | 40 hours/week | Full-time

- **Led an 8-person team** redesigning Ecuador's National Labor Force Survey, improving **data quality** and aligning official statistics with ILO and IDB standards.
- Built **SQL** and **Apache Spark ETL** pipelines integrating data for 800,000 businesses and 2.5 million workers, improving data quality and analytical capabilities.
- Used **SQL**, **R**, **Stata**, and **Excel** to analyze large datasets and deliver **executive reports** supporting national workforce policy decisions.
- **Automated** reporting workflows and collaborated with international organizations to strengthen statistical methodologies and data governance.

EDUCATION

- **Master of Arts in Development Economics**
Latin American Faculty of Social Sciences (*FLACSO Ecuador, Member of the FLACSO international system*)
- **Licence Droit, Économie et Gestion (Bachelor in Economics & Management)**
Université Jean Monnet, Saint-Étienne, France
- **Bachelor of Science in Economics & Finance**
National Polytechnic School (EPN), Ecuador
- **Professional Development: Project Management Professional (PMP®) Exam Preparation (*In Progress*), Machine Learning** (Stanford Online)

TECHNICAL SKILLS

Programming: SQL (SQL Server), Python, R

Power Platform: Power BI, Power Apps, Power Automate, SharePoint, Power Query, DAX

Business Intelligence: Tableau, Excel, Dashboard Development, KPI Design

Data Management: ETL, Data Integration, Data Validation, Data Quality, Relational Databases

Business Analysis: Requirements Gathering, UAT, Process Improvement, Stakeholder Management
